Hi Christine,  
Finally getting back to you. See input in red below.  
Thanks for moving this forward!  
Sue

P.S. I met with Audrey Turley and Dave Burch from ICF this afternoon and briefly mentioned that we'd likely be asking them to provide the modeling that they've done in the past. So, they have a little heads up this may be coming. Audrey and Dave said that they've found that SharePoint has worked for them in the past and they could download (upload?) files directly to SharePoint that could be accessible to ICF and EPA. I think we should go the route that you've set up for now, but we might consider whether in the future SharePoint has any advantages.

Hi Sue,  
I will send email to CMs for below chemicals. Could you please help me to double check and fill in the missing info?  
Thanks!  
Christine

Acrylonitrile: Jason Fritz & April Luke  
Benzo[a]pyrene: Katherine Newhouse  
Chromium: Catherine Gibbons & Alan Sasso (so far, Alan has been doing the BMD modeling. But we'll want to capture the modeling as some point. My guess is that it's premature to collect the modeling now, but let's figure out how best to do this.)  
Ethyl tert butyl ether (ETBE): Keith Salazar  
Ethylene oxide-cancer (not sure if there's BMDS modeling for EtO; will check with Jennifer): Jennifer Jinot?  
Formaldehyde:? Barbara Glenn and Andrew Kraft  
HBCD: April Luke & Katherine Newhouse  
RDX: Louis D'Amico  
n-Butanol:? Deb Segal and Ghazi Dannan  
PAH mixtures:? Margaret Pratt  
Tert-butanol:? Janice Lee  
Trimethylbenzenes: Allen Davis  
Vanadium pentoxide: Karen Hogan? (yes, I would say so)

Subject: BMDS storage

Christine

I forgot to pass along that I asked IRIS mgt on Monday about the BMDS storage plan that we plan to implement and got full support. I know we are on hold for the moment waiting for the new WA with ICF to be in place. I'd say that once we're back up and going with ICF, we send an email to the appropriate AMs and their BCs -- letting them know our plan -- and move forward!

Let me know if you have questions/suggestion Thanks, Sue
